TMB suspends Mesquite physician

On September 27, 2016, a disciplinary panel of the Texas Medical Board temporarily suspended, without notice, the Texas medical license of Megan Kendra Way, M.D., after determining her continuation in the practice of medicine poses a continuing threat to public welfare. The suspension was effective immediately.

The Board panel found that Dr. Way admitted to Board staff her misuse of controlled substances, including during times that she was actively engaged in caring for patients. Dr. Way made her admission while she was being investigated for an alleged impairment incident during a surgical procedure for which she had her hospital privileges suspended.

A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Way, unless the hearing is specifically waived by Dr. Way.

The temporary suspension remains in place until the Board takes further action.
