

# FORM U

## Medical Education, Training, and Employment Actions and Investigations Section

**Full disclosure:** It is imperative that you honestly and fully answer all questions, regardless of whether you believe the information requested is relevant, significant, or reportable. For example, a suspension by a hospital for failure to timely complete medical records is still a suspension, and the relevant question should be answered "yes". Your responses on your application are evaluated as evidence of your candor and honesty. An honest "yes" answer to a question on your application is not definitive as to the Board's assessment of your present moral character and fitness, but a dishonest "no" answer is evidence of a lack of candor and honesty, which may be definitive on the character and fitness issue. Please be advised that a false response to any of these questions may be grounds for denial of licensure and reported to the appropriate data banks.

1. Submit a statement below explaining the details. Use additional paper if necessary. Each page must carry a signature and the date.
2. Have the appropriate authority send any and all records (ie - training files, personnel files, credentials files, program files, privileges files, evaluation files pertaining to the action) regarding its investigation, action or pending action directly to the Board's offices.
3. You must complete a separate Form U for each action or investigation.
