TMB suspends Huntsville physician

On February 25, 2016 a disciplinary panel of the Texas Medical Board temporarily suspended, with notice, the Texas medical license of Darnel Michael Durand, M.D., after determining his continuation in the practice of medicine poses a continuing threat to public welfare. The suspension was effective immediately.

The Board panel convened the temporary suspension hearing, however before evidence was presented and prior to the conclusion of the hearing, the parties reached an agreement in which Dr. Durand consented to the temporary suspension of his license. The Board's allegations against Dr. Durand relate to nontherapeutic prescribing and the operation of two unlicensed pain management clinics.

The temporary suspension remains in place until the Board takes further action.
