

DEA Reclassifies Hydrocodone Products

In August, the Drug Enforcement Administration (DEA) published its [final rule](#) regarding the reclassification of hydrocodone combination products (HCPs). Effective October 6, 2014, HCPs moved from Schedule III to Schedule II controlled substances. HCPs include products such as Lortab®, Vicodin®, and Norco®.

The Texas Medical Board, the Texas Board of Nursing and Texas State Board of Pharmacy advise their respective licensees that all providers who order, dispense, or prescribe HCPs in the state of Texas must comply with requirements for prescribing Schedule II medications as set forth in state and federal law beginning on October 6, 2014. Advanced practice registered nurses and physician assistants may only prescribe hydrocodone combination products when providing care to hospice patients or practicing in hospital facility based practices as provided for in Chapter 157.0511(b-1) of the *Texas Occupations Code* and if registered with DEA and DPS to prescribe Schedule II controlled substances.

It is important for all prescribers, pharmacists, and pharmacy staff to be aware that prescriptions *written* for HCPs on or after October 6, 2014, must be written on a DPS official prescription form and no refills may be authorized. Any prescriptions for HCPs that are dispensed before October 6, 2014, that have additional refills authorized may be dispensed in accordance with state and federal law. The allowance to dispense these refills expires on April 8, 2015.

The Boards of Medicine, Nursing and Pharmacy also remind their respective licensees that the DEA classified tramadol as a Schedule IV controlled substance. This change became effective on August 18, 2014. All prescribers and pharmacy personnel must comply with requirements for ordering, prescribing and handling Schedule IV medications as set forth in state and federal law.

Dr. Zeitler Ends 26-Year Service, Dr. Arambula Appointed New Board President

After 26 years of service — nearly six years as Board president — Dr. Irvin E. Zeitler, Jr., D.O., is retiring from the Texas Medical Board. Dr. Zeitler, of San Angelo, served on one of the Medical Board’s District Review Committees from 1988 until his appointment to the full Medical Board. During his tenure with the Board, Dr. Zeitler had been appointed by three different governors.

At the Medical Board’s August 2014 meeting, Dr. Zeitler was honored for his many years of dedicated service to state of Texas. Dr. Zeitler plans on spending more time working with pre-med students at Texas Tech University System’s Angelo

State University where he is a course director for health coaching programs focused on assisting at-risk patients.

On September 2, 2014, Governor Rick Perry named Dr. Michael Arambula, M.D., Pharm.D., of San Antonio, as the new chair and president of the Board. Dr. Arambula, a current Board member since his first appointment in 2006, had been serving as the Board’s vice president.

Following his appointment, Dr. Arambula acknowledged the work of his predecessors.

Dr. Arambula, the first Hispanic Board president, is a psychiatrist in private practice and an adjunct associate professor in the Department of Psychiatry at University of Texas Health Science Center (UTHSC) at San Antonio. He is a member of the American and Texas Medical Associations, American Psychiatric Association, National Hispanic Medical Association and the Federation of State Medical Boards. Interstate Licensure Compact Proposed

The Federation of State Medical Boards (FSMB) has published the [final draft](#) of proposed statutory language for state legislatures to consider for adoption which would create an interstate compact to streamline the licensing of physicians who practice in multiple states. In addition to increased license portability, benefits of the compact include facilitating the use of telemedicine and increasing access to care throughout the United States.

The drafting process included the feedback and participation of state medical boards (including Texas), the FSMB, experts from the Council of State Governments and other stakeholders.

Under the compact, state medical boards would retain their licensing and disciplinary authority and allow for states to share information and processes. Physicians practicing in multiple states would receive a license in each state and be under the jurisdiction of the state medical board where the patient is located at the time of medical interaction. Participation in the interstate compact is voluntary, for both states and physicians.

For additional information on the interstate medical licensure compact, visit: <http://www.fsmb.org/state-medical-boards/interstate-model-compact/>

Disciplinary Actions

The following disciplinary actions have been taken since the previous bulletin was issued. To read previous bulletins and news releases, visit: <http://www.tmb.state.tx.us/page/news>

TEMPORARY SUSPENSION/RESTRICTION

Flynn, Robert Eugene, M.D., Lic. No. K9470, Garland

On October 2, 2014, a disciplinary panel of the Texas Medical Board temporarily restricted, with notice, the Texas medical license of Robert Eugene Flynn, M.D., under the authority of Section 164.0595 of the Medical Practice Act. The restriction was effective immediately. The restriction prohibits Dr. Flynn from having any contact with children in the course and scope of his practice as a physician. The temporary restriction was based on the panel's findings that on March 6, 2014, Dr. Flynn was arrested on charges that included an alleged violation of Texas Penal Code, 21.02, which the Board learned of at the time Dr. Flynn completed his license renewal in August 2014. The matter is currently set for a jury trial in Collin County in December 2014. The temporary restriction remains in place until the Board takes further action.

Khan, Ataur-Rehman Rizwan, M.D., Lic. No. L6461, Cypress

On September 9, 2014, a disciplinary panel of the Texas Medical Board temporarily suspended, without notice, the Texas medical license of Ataur-Rehman Rizwan Khan, M.D., after determining his continuation in the practice of medicine would constitute a continuing threat to the public welfare. The suspension was effective immediately. The Board panel found it has evidence that Dr. Khan poses or has posed a threat to harm himself or others that constitutes a potential threat of harm to patients and the public. A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Khan, unless the hearing is specifically waived by Dr. Khan. The temporary suspension remains in place until the board takes further action.

Koeneman, Kenneth Scott, M.D., Lic. No. K9826, Irving

On August 28, 2014, a disciplinary panel of the Texas Medical Board temporarily suspended, with notice, the Texas medical license of Kenneth Scott Koeneman, M.D., after determining his continuation in the practice of medicine would constitute a continuing threat to the public welfare. The suspension was effective immediately. The Board panel found it has probable cause to believe Dr. Koeneman is unable to safely practice medicine due to a physical or mental impairment. Dr. Koeneman was given the opportunity to present evidence to the contrary. The temporary suspension remains in place until the board takes further action.

Salameh, Raja Nicolas, M.D., Lic. No. G9654, McAllen

On September 26, 2014, a disciplinary panel of the Texas Medical Board temporarily suspended, without notice, the Texas medical license of Raja Nicolas Salameh, M.D., after determining

his continuation in the practice of medicine would constitute a continuing threat to the public welfare. The suspension was effective immediately. The Board panel found it has evidence that Dr. Salameh is unable to practice medicine with reasonable skill and safety to patients. Dr. Salameh had a significant and positive screen of his cognitive abilities, and his performance during the evaluation indicated he is unsafe to practice medicine, and that he presents a real and imminent threat to patient safety. A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Salameh, unless the hearing is specifically waived by Dr. Salameh. The temporary suspension remains in place until the Board takes further action.

QUALITY OF CARE

Amine, Maged A., M.D., Lic. No. K1340, Houston

On August 29, 2014, the Board and Maged A. Amine, M.D., entered into an Agreed Order requiring Dr. Amine to within one year complete at least 12 hours of CME, divided as follows: six hours in medical recordkeeping, three hours in risk management and three hours in complex coronary intervention/ complications. The Board found Dr. Amine failed to adequately document and communicate that he recognized a patient's problem with coronary flow was due to dissection in both the circumflex and left anterior descending artery (LAD) and Dr. Amine acknowledged that his documentation did not clearly demonstrate his recognizing of significant disease in the LAD, and this was a complex bifurcation angioplasty and not a simple percutaneous coronary intervention (PCI).

Boone, Heliodoro, M.D., Lic. No. D9364, San Antonio

On August 29, 2014, the Board and Heliodoro Boone, M.D., entered into an Agreed Order requiring Dr. Boone to within one year complete at least 22 hours of CME, divided as follows: 10 hours in pancreatic-hepato-biliary disease diagnosis and treatment and 12 hours in medical recordkeeping; and have his practice monitored by another physician for four consecutive monitoring cycles. The Board found Dr. Boone failed to meet the standard of care when he left the hospital to perform another surgery while the patient was post-operatively experiencing coagulopathic bleeding; failed to meet the standard of care by failing to confer and consult preoperatively; failed to perform a total splenectomy on the patient under the circumstances of suspected malignancy; failed to meet the standard of care for the patient due to his failure to perform a total splenectomy under those circumstances; and failed to maintain adequate medical records with respect to several patients.

Bowers, Robert Martin, M.D., Lic. No. H9808, Texarkana

On August 29, 2014 the Board and Robert Martin Bowers, M.D., entered into an Agreed Order requiring Dr. Bowers to within one

year complete at least 12 hours of CME, divided as follows: eight hours in the treatment of medical sepsis and four hours in risk management. The Board found Dr. Bowers should have admitted a patient based on the subsequent development of worsening presenting clinical symptoms.

Jackson, James Don, Jr., M.D., Lic. No. J3124, Palestine

On August 29, 2014, the Board and James Don Jackson, Jr., M.D., entered into a Mediated Agreed Order publicly reprimanding Dr. Jackson and requiring Dr. Jackson to have his practice monitored by another physician for eight consecutive monitoring cycles; within one year complete at least 24 hours of CME, divided as follows: eight hours in medical recordkeeping, eight hours in prescribing and eight hours in ethics; within one year and three attempts pass the Medical Jurisprudence Exam; and pay an administrative penalty of \$3,000 within 90 days. The Board found Dr. Jackson's medical records were inadequate, and the lack of objective findings indicating the treatment constituted nontherapeutic prescribing; failed to properly supervise a registered nurse who was working under his direction; and failed to cooperate with Board staff by failing to appear at ISCs on April 19, 2013 and June 17, 2013 and by failing to timely respond to Board subpoena.

Khan, Muhammad Akram, M.D., Lic. No. J4878, McKinney

On August 29, 2014, the Board and Muhammad Akram Khan, M.D., entered into an Agreed Order requiring Dr. Khan to within one year complete at least 12 hours of CME, divided as follows: four hours in risk management, four hours in ethics and four hours in patient communications. The Board found Dr. Khan admitted there was a system error which resulted in failing to do the time-out which led to the mistake in using a drug eluting stent in a patient.

Quiring, Mark Edmond, M.D., Lic. No. J2263, Mount Pleasant

On August 29, 2014, the Board and Mark Edmond Quiring, M.D., entered into an Agreed Order requiring Dr. Quiring to not possess, administer, dispense, or prescribe any Schedule II controlled substances, except as is medically necessary for treatment of inpatients in a hospital setting where Dr. Quiring has privileges or practices medicine. Any prescription of Schedule II controlled substances outside of the hospital setting shall result in the immediate suspension of Dr. Quiring's license to practice medicine; further requiring Dr. Quiring to have his practice monitored by another physician for eight consecutive monitoring cycles; within one year complete the medical recordkeeping course and the physician prescribing course offered by the University of California San Diego Physician Assessment and Clinical Education (PACE) program; within one year and three attempts pass the Medical Jurisprudence Exam; and pay an administrative penalty of \$10,000 within 60 days. The Board found Dr. Quiring pre-signed controlled substance prescription forms prior to leaving for vacation for specific patients coming in for refills on Schedule II drugs. Dr. Quiring stated that despite the covering physician using his own DEA number and signature on the prescription pad, the EMR carried Dr. Quiring's embedded name, causing the pharmacy to fill the prescriptions under Dr. Quiring's

DEA number due to mistake on part of the pharmacy. Furthermore, Dr. Quiring failed to meet the standard of care with respect to several patients by failing to maintain adequate medical records to justify his prescribing.

Thompson, Douglas Edward, M.D., Lic. No. L4149, Texarkana

On August 29, 2014, the Board and Douglas Edward Thompson, M.D., entered into an Agreed Order requiring Dr. Thompson to within one year complete at least eight hours of CME in treatment of medical sepsis; and have his practice monitored by another physician for eight consecutive monitoring cycles. The Board found Dr. Thompson failed to meet the standard of care regarding his failure to diagnose the total infected knee and in his lack of knowledge regarding sepsis; and failed to meet the standard of care in his failure to admit the patient.

UNPROFESSIONAL CONDUCT

Cunningham, Laurence W., D.O., Lic. No. G8685, Jacksonville

On August 29, 2014, the Board and Laurence W. Cunningham, D.O, entered into an Agreed Order requiring Dr. Cunningham to submit to an evaluation by the Physician Health Program (PHP) and comply with any and all recommendations made by PHP. The Board found Dr. Cunningham admitted his unprofessional conduct and intemperance with alcohol, his summary suspension and subsequent resignation from the hospital, and his arrest for disruptive behavior.

Stoufflet, Paul Eric, M.D., Lic. No. H8440, Austin

On August 29, 2014, the Board and Paul Eric Stoufflet, M.D., entered into an Agreed Order requiring Dr. Stoufflet to within one year complete at least 40 hours of CME, divided as follows: eight hours in medical ethics, eight hours in risk management, eight hours in recordkeeping, eight hours in informed consent and eight hours in patient communication; and pay an administrative penalty of \$2,000 within 60 days. The Board found Dr. Stoufflet failed to clearly indicate his relationship with Gulf Coast Neurology (Gulf Coast) to his patients, failed to obtain consent to conduct a test performed by his office by an outside company; and failed to provide a copy of test results to the patient at issue until eight months after the initial request.

Washington, Donald, Jr., M.D., Lic. No. H8886, Bedford

On August 29, 2014, the Board and Donald Washington, Jr., M.D., entered into an Agreed Order publicly reprimanding Dr. Washington and requiring Dr. Washington to within one year complete at least four hours of CME in physician communication and four hours in risk management; and pay an administrative penalty of \$1,500 within 60 days. The Board found Dr. Washington exhibited unprofessional conduct in his communications towards a patient and his family who was undergoing treatment for mesothelioma and experiencing shortness of breath and pain; and Dr. Washington admitted to failing to report to the Board that in 2006 he was arrested for domestic violence and was ordered to take a 24 week batterer's prevention and intervention program in Dallas County.

REVOCAATION

Lee, Shayna Patrice, M.D., Lic. No. H0554, Houston

On August 29, 2014, the Board entered a Final Order revoking Shayna Patrice Lee, M.D.'s Texas medical license. The Board found Dr. Lee pleaded guilty to the second-degree felony offense of engaging in organized criminal activity regarding the aggregate theft of Medicaid/Medicare funds on July 23, 2012. Dr. Lee also failed to comply with a prior 2011 Board Order. The action was based on the findings of an administrative law judge at the State Office of Administrative Hearings. This order resolves a formal complaint filed at the State Office of Administrative Hearings. Dr. Lee has 20 days from the service of the order to file a motion for rehearing.

Parker, Donald, M.D., Lic. No. N6563, Houston

On August 29, 2014, the Board approved a Final Order revoking Donald Parker, M.D.'s Texas medical license. The Board found Dr. Parker voluntarily surrendered his Louisiana medical license in light of a pending investigation by the Louisiana State Board of Medical Examiners for unprofessional conduct involving inappropriate behavior with a patient. Notice of the hearing before the State Office of Administrative Hearings was served to Dr. Parker. Dr. Parker did not appear and was not represented at the scheduled hearing, therefore staff moved for a default, which was granted by the Administrative Law Judge. This order resolves a formal complaint filed at the State Office of Administrative Hearings. Dr. Parker has 20 days from the service of the order to file a motion for rehearing.

Smith, Ralph Arnold, Jr., M.D., Lic. No. J3618, Greenwood, MS

On August 29, 2014, the Board entered a Final Order revoking Ralph Arnold Smith, Jr., M.D.'s Texas medical license. The Board found Dr. Smith was charged in 2012 with capital murder and conspiring to commit murder in the State of Mississippi. On July 9, 2012, the Mississippi State Board of Medical Licensing (MSBML) issued an order taking disciplinary against Dr. Smith's Mississippi medical license. The order required him to undergo an independent medical examination and prohibited him from practicing medicine until such a time as he had submitted to the necessary medical examination and the MSBML has determined his fitness to practice medicine. On January 14, 2014, the Circuit Court of Leflore County, Mississippi, issued an order finding Dr. Smith to be mentally incompetent to stand trial for the criminal charges against him in Mississippi. Dr. Smith is currently being held in a state hospital facility in Mississippi until such a time as he is found competent to stand trial for the criminal charges against him. Accordingly, he is currently of unsound mind. As a result, on March 24, 2014, Board staff filed a motion for summary judgment in this case. The action was based on the findings of an administrative law judge at the State Office of Administrative Hearings. This order resolves a formal complaint filed at the State Office of Administrative Hearings. Dr. Smith has 20 days from the service of the order to file a motion for rehearing.

On August 14, 2014, a disciplinary panel of the Texas Medical Board temporarily suspended, with notice, the Texas surgical assistant license of Christopher James Scott, S.A., after determining his continued practice as a surgical assistant poses a continuing threat to public welfare. On April 8, 2014, Mr. Scott was arrested by the Houston Police Department (HPD) and was subsequently indicted on April 9, 2014, for two counts of felony Possession with Intent to Deliver a Controlled Substance, in Harris County, Texas. The panel found the evidence demonstrates that Mr. Scott's possession and likely distribution of illegal narcotics puts him at a substantial risk of being impaired when providing medical care to patients. Furthermore, the evidence demonstrates that Mr. Scott engaged in multiple violations of federal law, state law, the Surgical Assistant Act and Board rules. Based on these findings of fact, the panel finds an imminent peril to public health, safety, or welfare that requires immediate effect of an Order of Temporary Suspension. The temporary suspension remains in place until the Board takes further action.
