RULE CHANGES ADOPTED

CHAPTER 160. MEDICAL PHYSICISTS

The amendments to **§160.10**, concerning Training Licensure, amend the rule by eliminating the term "training license" and substituting the term "temporary license" to be consistent with language in the Medical Physicist Act. The amendments increase the number of temporary license which an applicant may granted from four to twelve, with the proviso that after the seventh renewal the Board shall perform an evaluation to determine if an applicant is making progress in a medical physicist training program. The amendment also eliminates the term "renewal," because that term was inaccurate as temporary license are not renewed, but rather each license requires a new application. The amendment further adds language authorizing the executive director, at the executive director's discretion, to approve a supervisor of temporary licensees to supervise more than two temporary licensees. Finally, the amendment adds language allowing a supervisor at a CAMPEP approved medical physics training program to supervise more than two temporary licensees without requesting executive director approval.
