- Treatment plan for each patient visit or consultation;
- Notation of any herbal medications, including amounts and forms, and other modalities used in the course of treatment with corresponding dates for such treatment;
- System of billing records which accurately reflect patient names, services rendered, the date of the services rendered, and the amount charged or billed for each service rendered;

- Written record regarding whether or not a patient was referred to a physician after the acupuncturist performed acupuncture 20 times or for two months whichever occurs first, as required by §183.7(b) in regard to treatment of patients upon referral by a doctor licensed to practice chiropractic by the Texas Board of Chiropractic Examiners;

- In the case of referrals to the acupuncturist of a patient by a doctor licensed to practice chiropractic by the Texas Board of Chiropractic Examiners, the acupuncturist shall record the date of the referral and the most recent date of chiropractic treatment prior to acupuncture treatment; and, reasonable documentation that the evaluation required by §183.7 was performed or, in the event that the licensee is unable to determine that the evaluation took place, a written statement signed by the patient stating that the patient has been evaluated by a physician within the required time frame on a copy of the form required in the rules ([Link to form](#)).

The referral documentation is not required when acupuncture is performed on a patient for the following conditions ONLY: smoking addiction, substance abuse, alcoholism, chronic pain, or weight loss.

How long do acupuncturists have to keep patient records?

Treatment and billing records for acupuncture patients must be maintained for a minimum of 5 years from the anniversary date of the date of last treatment by the acupuncturist.

If the patient is younger than 18 years of age when last treated, the records of the patients must be maintained until the patient reaches age 21 or for five years from the date of last treatment, whichever is longer. If required by any other state or federal law, records must be maintained longer than required by Board rules. Additionally, if records relate to any civil, criminal or administrative proceeding, records must be maintained until the physician knows the proceeding has been finally resolved and the above-mentioned time frames have been satisfied.

For more information on record requirements as they relate to acupuncturists, please consult [Chapter 183](#) of Board rules.

QUALITY OF CARE

Agusala, Madhava, M.D., Lic. No. J1178, Odessa

On March 3, 2017, the Board and Madhava Agusala, M.D., entered into Mediated Agreed Order requiring him to have his practice monitored by another physician for eight consecutive monitoring cycles; and within one year complete at least 36 hours of CME, divided as follows: 12 hours in medical record-keeping, 12 hours in vascular interventions and complications, and 12 hours in peripheral arterial disease. The Board found Dr. Agusala did not adequately document physical examinations, assessments, and indications for peripheral interventions on a patient, failed to consider another diagnosis other than claudication on one patient and interpreted and relied on insufficiently documented ultrasound and peripheral angiogram reports on a patient. This order resolves a formal complaint filed at the State Office of Administrative Hearings.

On March 3, 2017, the Board and Craig Clark Beasley, M.D., entered into an Agreed Order requiring him to have his practice monitored by another physician for 16 consecutive monitoring cycles; within one year complete the prescribing course offered by the University of California San Diego Physician Assessment and Clinical Education (PACE) program; maintain a logbook of all written prescriptions for controlled substances; and within one year complete at least 12 hours of CME, divided as follows: 8 hours in medical recordkeeping and four hours in identifying drug-seeking behavior. The Board found Dr. Beasley failed to meet the standard of care in his treatment of multiple patients due to improper documentation of his treatment rationale, failed to incorporate other treatment modalities, and failed to develop and implement adequate treatment plans for the patients.

On March 3, 2017, the Board and Robert Fry, M.D., entered into an Agreed Order Upon Formal Filing requiring him to within 30 days obtain a multi-disciplinary psychiatric evaluation from the Gabbard Center in Bellaire, Texas and follow all recommendations for care and treatment; upon completion of his evaluation, Dr. Fry shall contact the Texas A&M Health Science Center Knowledge, Skills, Training, Assessment, and Research (KSTAR) program or Phases I and II of the University of California San Diego Physician Assessment and Clinical Education (PACE) pro-

gram to schedule an assessment and complete any and all recommendations within one year; and upon completion of the evaluations, appear before the Board to address any issues from the evaluation and assessment and compliance with the terms of the order. Prasad, Suresh, M.D., Lic. No. K8430, Odessa

On March 3, 2017, the Board and Suresh Prasad, M.D., entered into an Agreed Order requiring him to within one year complete at least 12 hours of CME, divided as follows: 4 hours in medical recordkeeping and 8 hours in risk management. pay an administrative penalty of \$5,000. The action was based on the findings of administrative law judges at the State Office of Administrative Hearings (SOAH) including: failure to provide informed consent to the treatment plan; failure to supervise research assistants who were not authorized to practice medicine; unlicensed practice of medicine; failure to disclose his ownership interest in southern family pharmacy; improperly classifying a minor patient's death as a lesser adverse event for purposes of FDA re-

porting; and failure to maintain adequate medical records to support charges. This order resolves a formal complaint filed at SOAH. Dr. Burzynski has 20 days from the service of the order to file a motion for rehearing.

Subsequently, the patient's condition deteriorated and the patient was attended to by an alternate physician. Dr. Frierson did not return to the hospital after being called by nursing staff relating to the patient's condition. Dr. Frierson should have exercised greater diligence and come to the hospital to attend to the patient.
