Texas Board of Medical Radiologic Technology suspends Fort Worth MRT

On November 14, 2023, a disciplinary panel of the Texas Board of Medical Radiologic Technology temporarily suspended, without notice, the Texas medical radiologic technologist certificate of Warren Greene, MRT (Lic. No. GMR02009715), after determining his continuation in the practice of medical radiologic technology poses a continuing threat to public welfare. The suspension was effective immediately.

The Board panel found that Mr. Greene suffered from an impairment that interfered with his ability to practice safely. Mr. Greene was removed from staffing and administered a drug and alcohol test which tested positive for alcohol and he was subsequently terminated from employment.

A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Mr. Greene, unless the hearing is specifically waived by Mr. Greene.

The temporary suspension remains in place until the Board takes further action.
