Message From the TMB President: National Doctors' Day 2023

Zaafran

As physicians, we know the joys of taking care of the patients of Texas, helping them through some of their worst days knowing that better days are ahead. We also know first-hand the sacrifices and challenges that come with the job, especially in these recent years. We work long hours, face difficult decisions, and deal with the emotional toll of caring for pa-

tients in times of crisis.

Physicians are not just healers of physical ailments, they are also healers of the mind. Today on National Doctors' Day, we celebrate and honor their work, including their dedication to mental health.

Physicians work hard to provide our patients with the best care possible, including mental health care, working tirelessly to help patients overcome mental health challenges.

Mental health awareness has come a long way in recent years, but there is still so much work to be done. Physicians play a crucial role in this effort by recognizing the signs and symptoms of mental health issues and helping their patients get the treatment they need.

We as health care professionals, too, need to be mindful of our own health and mental well-being. Your mental health is just as important as your physical health. If you or someone you know is struggling, don't hesitate to seek help from a qualified healthcare professional.

We can do a great deal in helping each other by checking in with our colleagues, talking to those who we think might be struggling, and making sure we schedule our own appointments for annual physicals and check-ups.

Recognize that we are not alone in this work. Our colleagues, physician assistants, nurses and techs, thera-

pists and administrative staff, are an integral part of the healthcare team.

Together, we provide the best care possible for our patients. We collaborate, share knowledge, and support each other through the ups and downs of the job.

We are much stronger together. Let's continue working together to provide the best care possible for our patients.

On behalf of the Texas Medical Board, thank you for your service and dedication to our noble profession. It's an honor to work alongside you, and I am grateful for the impact we make every day on the lives of our patients in our great state of Texas!

Happy National Doctors' Day!

Respectfully,

Dr. Sherif Zaafran, M.D., FASA

Texas Medical Board President

ALERT Reminder: Scams Targeting Licensees

We remind **ALL** licensees to be on the alert for scammers impersonating the Texas Medical Board, other licensing boards, and other state and federal agencies over the phone or through fake letters sent via FAX, email, or mail.

In some instances, scammers may claim to be employees with the TMB, DEA, FBI or other law enforcement entity and may even attempt to spoof phone numbers making it appear as though a call is originating from a government agency, or send documents on official-looking letterhead demanding money or other action ([click here for an example of a fake letter](#)).

In one recent scam, a medical clinic received a phone call spoofing a TMB phone number in which the caller identified himself as "Terrance," a TMB investigator who needed to relay "important information" to a physician about their license. The caller repeatedly indicated that they needed to verify the physician's information, gave their license number, and told the physician they needed to inform them of a "legal complaint." The caller then transferred the call to another individual who identified himself as the "chief investigator officer" to provide fur-

ther information. This other individual stated they were from the "Medicine Board of Texas," then informed the physician they received a legal complaint of "illegal drug trafficking" from the FDA and the "FBI Department," and provided a fake badge number and case number to the physician. The caller said the line was being recorded and requested the physician's personal cell phone number to continue the conversation.

Please know the TMB staff would never call and discourage individuals from contacting lawyers, make requests for sensitive information over the phone or send demand letters for money to reinstate licenses or threaten the arrest of licensees. The TMB

does not suspend licenses at the direction of the DEA, FBI or other federal entity. Additionally, the TMB has no authority to issue, cancel, or influence arrest warrants, as some scams have indicated.

For more information on scams and how to report them to law enforcement authorities, visit: <https://www.tmb.state.tx.us/page/scam-alerts>

TMB Offices Have Moved to New Location

Texas Medical Board offices have relocated to the George H.W. Bush state office building on 1801 Congress Avenue, part of the Texas Capitol Complex expansion project to centralize state agencies.

The TMB's new physical address is: **1801 Congress Avenue, Suite 9.200**
Austin, TX 78701

Please note agency phone numbers, FAX numbers, and P.O. Box numbers did not change.

NOTICE REGARDING PUBLIC ACCESS TO BUILDING:

While TMB offices are open to the public, the current Texas Facilities Commission rules for accessing agency suites in the George H.W. Bush Building are very restrictive. As such, for now, we would encourage TMB customers to reach out to us via email, phone, or mail as opposed to visiting in-person. This will enable the agency to provide the best possible service and reduce inconvenience for customers.

Case Review Experts Needed

TMB is calling for physicians in all areas of medicine to serve as experts in reviewing standard of care cases.

Specific areas of need are in Family Medicine, Oncology, Ophthalmology, OB/GYN, Complementary & Alternative Medicine, Interventional Cardiology, Orthopedic Surgery, and Pediatric subspecialties.

As an expert to the Board, your identity for any individual case will be confidential. The requirements for serving are:

- No history of negative peer review action or license restriction
- Acceptable malpractice history

A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Fiallo, unless the hearing is specifically waived by Dr. Fiallo. permitted to supervise and delegate prescriptive authority to physician assistants and advanced practice nurses or supervise surgical assistants.
