TMB suspends Houston physician

On December 10, 2014, a disciplinary panel of the Texas Medical Board temporarily suspended, with notice, the Texas medical license of Ronald Alan Green, M.D., after determining his continuation in the practice of medicine poses a continuing threat to public welfare. The suspension was effective immediately.

The Board panel found Dr. Green operated an unregistered pain clinic and improperly supervised a physician assistant who was nontherapeutically prescribing controlled substances to multiple patients.

Furthermore, several patients at issue were involved in a criminal investigation relating to obtaining controlled substances for distribution regarding prescriptions obtained at Dr. Green's clinic.

Based on these findings, the panel determined Dr. Green is a continuing threat to both patients and the public.

The temporary suspension remains in place until the Board takes further action.
