Medical Board Suspends License of Robert J. Byrnes, D.O., of Palestine

A panel of the Texas Medical Board suspended the license of Robert J. Byrnes, D.O., license number J1904, after determining that Dr. Byrnes' continuation in the practice of medicine presents a continuing threat to the public welfare.

The temporary suspension hearing took place Friday, October 6, under the Board's authority, granted by S.B. 104 of the 78th Legislature, to suspend or restrict a physician's license without notice when it determines the physician's continuation in practice would constitute a continuing threat to the public welfare. The suspension was effective immediately.

The action was based on the following: Dr. Byrnes was arrested for making terroristic threats toward his wife; he was indicted in Anderson County for insurance fraud; he was arrested in Anderson County for criminal failure to pay child support; he had a positive test for amphetamines; his DPS renewal was denied and he surrendered his DEA registration; he was arrested and indicted for issuing a prescription for a controlled substance without proper registration; his car was searched by the Palestine Police Department, which found controlled substances and other drugs and a triplicate prescription pad in another doctor's name; and other findings for which the panel found an imminent peril to the public health, safety or welfare that requires immediate effect of the order of temporary suspension.

The length of a temporary suspension is indefinite and remains in effect until the board takes further action.
